Do you hear voices or have unconventional sensory experiences?

If you answered yes and want to talk about your experiences, please join us via computer or phone for Virtual HVN.

All HVN meetings are open to the public. Your identity will be kept confidential. Feel free to attend whichever group fits your schedule, as frequently as you like. First-time callers are welcome.

Please note that the times cited in the calendar above are START times. All groups meet for an hour. Please be courteous to others in the discussion by calling in when the group starts. If you call 15 minutes after a group has started, you may be prevented from joining the conversation already in progress (at the discretion of the groups facilitator).
